Washington, DC 20554

Dear The Federal Communications Commission,

I do not want the Government putting more fees on services that I have so that these fees will go to others to support there services. Why are you putting more fees on a cellular phone that I have rfor emergency uses? You out all kinds of fees on land lines so that people finally gave up on that service and went to a cell phone and now you want to put a flat rate tax on this service. I do not believe that everything should be had by everybody.

If you continue to keep putting taxes and fees on products people are going to quit buying these services or products.

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Mark Simmonds
